What's new at Legacy Building Specialties

Fireplaces add a rustic touch

Legacy Building Specialties proudly announces that it now carries the top name in custom fireplaces: Mendota.

Mendota Designer Series models faithfully re-create the exact look and feel of a woodburning fireplace, made easier with the convenience of gas.

Our design staff can work a Mendota fireplace into most any setting with an eye toward comfort, warmth and aesthetics.

Even better, Legacy installs Mendota fireplaces too, offering a complete package from design consultation to installation.

Call 887-3600 for more information on this great new offering, or go to LegacyCWD.com and follow the links to Mendota.

MENDOTA fireplaces offer a variety of excellent features. They offer award-winning log fires and operate during power failures. Each fireplace has a limited lifetime warranty.

Did You Know?

Mendota fireplaces operate at up to 50,000 BTUs and have the highest efficiencies (up to 86.4%) of any fireplace on the market.
